Awesome you got the PCC engaged. I will help them set up a Sit Rep. We used that for the Louisiana PCC. It was looked at by the White House. FYI.

I just love how our organization works. Just makes my day. Have Poulet keep us in the loop as NM is hit.

Patrick

R8/ATSDR facilitated the assistance of the RMPCC and NMPCC to the San Juan Basin Health Department (SJBHD). I just requested emergency travel orders for Chris to Deploy to Durango, CO to assist SJBHD. I tried to obtain TA for him through the CDC/DEO over the weekend. You would think they would have a mechanism in place, but ...Ha Ha.

Thanks Dan. Keep us in the loop. I know the Poison Control Centers for both New Mexico and Colorado have been active in the response. EPA has requested nothing from us in R6. They stood up the EOC in Dallas and sent 2 EPA OSC's to Farmington, NM. If you get a health unit set up, happy to help from my end. Call if you want to discuss further.

Yes. We will request travel orders for one of the reps to deploy to Durango. Unable to obtain TA through CDC/DEO over the weekend.

Subject: Request for ATSDR assistance deployment

Hello Chris,

As our RRT rep, I am sending this to you but please forward it on to others as appropriate.

On behalf of RRT Co-Chair David Ostrander, I am requesting ATSDR deploy resources to assist the OSC working the Gold King Mine Release in Durango, CO. Specifically we seek technical assistance via one ATSDR environmental health initial person to help UC with human health threat assessment and analysis, and exposure prevention and mitigation. This person would deploy for approximately one week but, if assistance is needed longer, we would expect additional personnel to rotate to the site, preferably with opportunity to overlap/transition to the incident.

Please contact me with any questions and thank you in advance for your assistance!!

Gina Cristiano

Emergency Response & Planning Coordinator

EPA Region 8
